1. Updated Community Manifestoes

John B. Caulfield reads aloud the updated manifestos for the Éire Community Council. The Board adpot the updated Cons#tu#on unanimously and uncondi#onally. The Chair delivers the objec#ves and aspira#ons of the 1, 3 and 5 year plan. By 21st January 2030 the organisa#on aspires to have a Community Supreme Council in every county, and a County Court in every county which gives the power to the people in their own communi#es. Being aware of the strategy of the corporate government to to confuse the People of Ireland, the Éire Comity Council are u#lising the mechanism of the I.R.B. Provincial Councils to form the nuclei (the Execu#ve) of all the Community Councils in Éire. This can be likened to the crea#on of a “shel company” in the corporate world where, when the people of a community are ready to establish their own Council, the structure is already in place for them.

The #ered structure that is in place (Provincial, County, Community) is for dispute resolu#ons. It is not an overbearing power nor can it ever be. Once the crucial mass of 100, 300 and 600 members has been reached and the Community Court established, then the people of that Community have the highest say.

Point of clarification sought from the floor;

Do the members of the Council have to be from the mapped area?

Response from the Chair; No, board members are not required to be from the area but the members do. The Board is just the administrative body, it is the people of the Community who have the power.
